PROJECTS

Aura - Commerce Website [Github Repo \(Pending Project\)](#)

- Built full-stack e-commerce platform with authentication, RBAC, and JWT security
- Developed RESTful APIs with Redis caching, rate limiting, and centralized error handling
- Designed PostgreSQL schema and implemented product, cart, and order management
- Built responsive React UI with state management and optimized API integration

CashVolt - Personal Finance Tracker [Live Demo](#) | [GitHub Repo](#)

- Developed budget & expense tracking system using PERN stack
- Built secure REST APIs with JWT authentication and role-based access control
- Designed optimized PostgreSQL database schema and queries
- Integrated Cloudinary and API performance optimization
- Created interactive React dashboard for financial analytics

Nutora - [GitHub Repo](#)

- Built a full-stack e-commerce platform supporting multiple vendors.
- Developed REST APIs for product management and order processing.
- Implemented authentication and role-based access control.

SNX Developer Portfolio – [GitHub Repo](#) | [Live Demo](#)

- Built a full-stack portfolio and blogging platform using React, TypeScript, Node.js, Express, and PostgreSQL.
- Built secure REST APIs with JWT authentication and role-based access control
- Built an admin dashboard with CRUD operations, image uploads via Cloudinary, and content management features.
- Implemented responsive UI, form validation, REST APIs, and optimized performance using Tailwind CSS, TanStack Query, and Zod.
- Designed PostgreSQL schema

EXPERIENCE

Personal Projects

2022 – Present

- Built and deployed full-stack web applications.
- Collaborated with developers through Git and GitHub workflows.
- Applied modern development practices including API integration and responsive design.

EDUCATION

BSc Civil & Environmental Engineering — Addis Ababa University

2022 – Present (Expected 2027)

CERTIFICATIONS & TRAINING

- Meta Front-End Developer Professional Certificate Coursera, 2024
- Relational Database FreeCodeCamp, 2026
- Responsive Design FreeCodeCamp, 2025
- Backend and API Development FreeCodeCamp, 2026
